

HOW DO I SELL THE PRODUCT

Here are a few ideas you can explore to help you sell the product.

1. Start from your local church, and create an account for your church. Let your church admin and leadership know about the values and benefits Churchplus will add to the ministry.
2. Leverage your networks, friends, and family. Request contact they know within the church circle that can help your work.
3. Create your proposal and email it to the different churches you have in mind.
4. In-person visitation to the churches, book appointments with church Admins and Church Leaders to present the software to them.
5. Run ads on your social media platforms about the products.
